REPORT OF THE SUPERINTENDENT OF SCHOOLS

We respectfully submit this our fifth annual report to the citizens of Langdon. In the statistical table following we give the summary for the past school year as taken from the school registers. We are supplementing this statement with the number in the schools at the present time. Names of teachers beginning this year are in parenthesis.

School	Teacher	No. enrolled	Av. attendance	P. C. attendance	No. weeks	Enrolled 1918
Advanced,	Annie Wellman	19	14	85	36	24
Primary,	Gladys Bullard	24	15	86	36	18
Hill	Mary Houghton	8	7.8	92	16	
	Marion Wilbur				13	
	Minnie Smith					7
		51	36.8			49

Owing to the scarcity of teachers it has been difficult to secure teachers for the schools at the salary we have been paying. We were fortunate in retaining the village teachers for this year, and in securing a teacher of experience on the hill. We have had our share of lost time because of the epidemic at the village, but with little on the hill. The open winter has helped in maintaining more weeks than usual in this school.

The teachers have been working to further install the courses prescribed by the new state program of studies. While the work is steadily progressing yet there have been no radical changes. The Normal schools are turning out teachers in small numbers who are trained for the new work, but as there are not enough for all the schools, we must retain our teachers and train them in the schools. No changes in teachers have been made thus far this year. The teachers have been encouraged and aided in their work as in other years. The text books have been adjusted to meet the needs of the pupils and to fit the requirements of the state program. A few single copies of supplementary readers have been secured for the school libraries. But more are needed. The work being done in this line seems very profitable. The pupils are given a broader content and the younger pupils improve in reading facility. We are hoping that we may secure the cooperation of the Alstead library in aiding us in this matter.

The ending of the war has relieved the schools of a part of the unusual strain. We hope that conditions will soon become normal, that we may make closer estimates of what the salaries of teachers and other running expenses of the school will be. Our average attendance is not so large as it should be. We must make every effort to keep it up to the point where we can secure state aid. One of the towns in this district lost their state money because of poor attendance.

An effort was made last year to interest the pupils

in home gardens. Some results were secured, but they were not so satisfactory as those we had under summer supervision. The boys' club aided a few in their work, but not so many were reached as should have been. This year the national government is making some provision for the promotion of home gardens under school supervision during the summer. We hope for your support of the War Garden Army.

We hope for your further support in making the schools as efficient as those of other towns. We are looking for larger state aid to equalize the burdens on the small towns. We feel that you will meet the emergencies as they come. We wish to thank the people of Langdon for the support they have given us in the past. The teachers have shown ability and put forth effort to make the work efficient. We hope we may have a successful school year, and that we may all work together for the children of Langdon.

E. J. BEST, Superintendent.
